

SUMMARY

Full Stack Engineer with experience building scalable web applications using React.js, Next.js, TypeScript, Node.js, and PostgreSQL. Skilled in developing modern user interfaces, REST APIs, multi-tenant SaaS platforms, and cloud-native applications. Passionate about delivering performant, maintainable software and collaborating across product, design, and engineering teams.

SKILLS

Programming Languages: TypeScript, JavaScript, Python, Java

Frontend Development: React.js, Next.js, Tailwind CSS, Shadcn UI, TanStack Query

Backend Development: Node.js, Express.js, NestJS, FastAPI, REST APIs, gRPC

Databases: PostgreSQL, MongoDB, DynamoDB, SQLite

Cloud & DevOps: AWS, Docker, Git, GitHub, CI/CD (GitHub Actions)

Testing & API Tools: Playwright, Postman

Architecture & Concepts: Multi-tenant SaaS, RBAC, JWT Authentication, OAuth, Event-driven Systems, LLM Integrations

PROFESSIONAL EXPERIENCE

Software Engineer

Tecunique

Nov 2025 – Present

Vadodara, Gujarat

- Designed enterprise-grade Jira plugin using Atlassian Forge with reliable processing of 60K+ issues through batching, retries, and resumable recovery artifacts under strict API rate limits.
- Architected authentication and organization management for multi-tenant fintech SaaS platform including RBAC, 2FA, tenant onboarding, and secure access/refresh token rotation.
- Developed Playwright end-to-end test suites covering authentication and tenant lifecycle flows, achieving 87% branch coverage and preventing regressions in critical paths.

Full Stack Developer

HolboxAI

Jul 2024 – Oct 2025

Ahmedabad, Gujarat

- Engineered 11 proof-of-concept modules across HR, finance, inventory, and procurement domains, validating product-market fit for 2+ production releases.
- Built Resume Scraper platform with automated Workday ingestion, resume parsing, and ML-based job-to-candidate matching improving auto-fill efficiency by 40%.
- Designed multi-tenant inventory management system with schema-based tenant isolation and optimized CI/CD pipelines reducing deployment time from 8 minutes to under 3 minutes.

React Developer

Axelor Technologies India Pvt Ltd

Jan 2024 – Jul 2024

Surat, Gujarat

- Developed and refactored React modules for Axelor Open Suite CRM, improving workflow consistency and reducing redundant UI code by 20%.

PROJECTS

ClearDays: Enterprise Multi-Tenant HRMS | React 19, Node.js, PostgreSQL

Feb 2026 – Present

- Designed scalable multi-tenant HRMS architecture with row-level security, hybrid RBAC/ABAC authorization, and Redis caching achieving sub-100ms P99 latency.
- Built event-driven workflow engine with configurable approval chains, audit logging, and tenant-scoped security preventing cross-organization data leakage.

Lobby Network: Job Search Platform | Next.js, Node.js, MongoDB, Python

Jul 2025 – Oct 2025

- Developed job platform scraping Workday and competitor listings with NLP preprocessing and ML-based candidate matching.
- Implemented auto-fill system extracting structured resume data, improving application completion efficiency by 40%.

BrickoSys: Inventory and Warehouse Management System | React, Node.js, PostgreSQL, AWS

Oct 2024 – Feb 2025

- Built multi-tenant inventory management system with modular APIs for stock tracking, warehouse management, and order dispatch workflows.
- Implemented schema-based tenant isolation and optimized order processing workflows reducing manual tracking effort by 42%.

EDUCATION

Parul Institute of Technology

B.Tech in Computer Science and Engineering | CGPA: 8.86/10

Oct 2020 – Jun 2024

Vadodara, Gujarat

ACHIEVEMENTS

- AWS Certified Solutions Architect – Associate
- GATE 2024 (CSE): AIR 7700 (Top 8% Nationwide)
